VI. Read the following passage carefully and answer the questions set on it.

Dolphins are regarded as the friendliest creatures in the sea and stories of them helping drowning sailors have been common since Roman times. The more we learn about dolphins, the more we realize that their society is more complex than people previously imagined. They look after other dolphins when they are ill, care for pregnant mothers and protect the weakest in the community, as we do. Some scientists have suggested that dolphins have a language but it is much more probable that they communicate with each other without needing words. Could any of these mammals be more intelligent than man ? Certainly the most common argument in favor of man’s superiority over them that we can kill them more easily than they can kill us is the least satisfactory. On the contrary, the more we discover about these remarkable creatures, the less we appear superior when we destroy them.

- 1) What is common since Roman times ? 1
- 2) Write two lines about how the Dolphins take care of their companions. 2
- 3) The more we discover about these _____ creatures, the less we appear _____ when we destroy them. 2

VIII. Summarize the following passage and your summary must have at least four main points. Give a suitable title to the summary. 5

Mount Rushmore is a national monument located in the Black Hills of South Dakota. Carved into the side of the large mountain are the faces of four men who were United States Presidents. These men were chosen because all four played important roles in American history. The four faces carved onto Mount Rushmore are those of George Washington, Thomas Jefferson, Abraham Lincoln and Theodore Roosevelt. Each face carved into the mountain is about 60 feet tall. George Washington was chosen for this monument because of his role in the Revolutionary War and his fight for American independence. He was the first United States President and is often called the father of our country. Thomas Jefferson was picked because he believed that people should be allowed to govern themselves, which is the basis for democracy. Abraham Lincoln was added because he believed that all people are equal, and he helped end slavery in the United States. Theodore Roosevelt was chosen because he was such an influential president and world leader. The man who carved Mount Rushmore was named Gutzon Borglum, and he worked on the monument until his death in 1941. After Gutzon Borglum died, his son Lincoln Borglum worked on the mountain until there was no money left to continue. Fourteen years were spent creating the faces on Mount Rushmore. Dynamite was used to blast the tough granite rock off the mountain to make a smooth surface for the faces. George Washington was carved first, and his face began as an egg shaped piece of granite.

Thomas Jefferson was added to the right of George Washington, but his face cracked and had to be blasted off the mountain. Jefferson was then re-carved to the left of George Washington. Lincoln and then Roosevelt were added to the mountain. Snow and a dearth of money slowed down the work, and all work on the monument ended when there was no money left to continue.
