Kindly send this by the end of this year ...

JCI founded by Dr. R. Chenraj Jain in the year 1990, has spread its wings across the length and breadth of the country with One University, Free Schools, P - 12 Schools, Colleges, Management and Professional Institutions.

JCI's undertakings in education are aimed at the reconsolidation of tomorrow and are striving to ensure that every individual out of the Institutions is a model of self support and individual initiative.

JCI believes in individuals learning to be the creators of jobs than job seekers as we normally find in an individual getting their education. Towards this goal we pursue to be on the right path.

In the year 2004, has created a bench mark to recognise Quality in Education.

To uphold and strengthen the community of learners and knowledge seekers the institution strives its way to provide 100% knowledge and understanding.

With 06 ranks in the last 09 academic years, its still a long way ahead in the journey. So lets begin each day as a new beginning to achieve something new...

Library & Information Science is the most sacred place of an Educational Institution, wherein learning is disseminated through books, journals, magazines, news papers news letters, etc with the print media.

In today's technological world, e paper, e journal, e magazine, e books, e news are ruling in the knowledge world, which has to be properly organised, maintained and delivered to all learners in full.

Supplementing this process in the Institution, the role of Librarians is very huge. Many Libraries use different kind of softwares for upkeep of Books, Records, information and resources. E - Granthalaya is one among the most popular ones being used in the country.

The proper use of this software in the field is the need of the hour and hence it was a well laid out thought from our Institutions Librarian to spread this knowledge of up keeping to all the fraternity of Librarians.

Objectives - To provide intensive hands on experience in utilizing E- Granthalaya.

Covered Modules - Cataloguing, OPAC Circulation and Serials.

Resource Person
 Ms. Manimozhi Udayanan
 Technical Director - NIC

Send it on or before 31 / 12 / 2013

e-Granthalaya: A Digital Agenda for Library Automation and Networking From National Informatics Centre, Government of India

e-Granthalaya

• NOTICE: NIC/NICSI has empanelled three Agencies for Rolling out of e-Granthalaya Services. However, e-Granthalaya Software will be provided FREE to the Libraries, but other services will be on payment basis. For details, pls write us.

e-Granthalaya

e-Granthalaya is a library automation software from National Informatics Centre, Department of Electronics & Information Technology, Ministry of Communications and Information Technology, Government of India. The software has been designed by a team of experts from software as well as Library and Information Science discipline. Using this software the libraries can automate in-house activities as well as user services. The software can be implemented either in stand-alone or in client-server mode where database and WebOPAC are installed on the server PC while the data entry program is installed on client PCs. The software provides LAN/Web based data entry solutions for a cluster of libraries where a centralized/Common database can be created with Union Catalog output. The software provides Web OPAC interface to publish the library catalog over Internet/Intranet. The software runs on Windows platform Only, UNICODE Compliant, thus, supports data entry in local language.

History

e-Granthalaya was started as an in-house project of 'Karnataka State Centre of NIC Bangalore' and first version of the software was designed for the Public Libraries in the State. Later, NIC HQs 'Library and Information Services Division' took over the designing of the software where library professionals were involved in the designing process and thus, improved the software with enhanced user interface and simplify the work-flow of library functions so that it can suit all kinds of libraries. Following table shows the release of various versions of the software:

Technology/Platform used	Version	Year	DBMS
Visual Basic I/ASP/HTML	1.0	2003	MS SQL Server 7

Training Announcement
