Learning Management Systems are a vital software platform to deliver education and training courses online. The Learning Management System or popularly known as LMS in the community of higher institutions is an online portal that connects lecturers and students. It provides an avenue for classroom materials or activities to be shared easily. It is also a portal that enables lecturers and students to interact out of the classroom After invention of Internet and WWW, the world has become a global village. Earlier it was very difficult to spread knowledge globally. But today it is very easy to share and learn by using the Internet and also it helps the education system a lot by introducing concept called e-learning based Learning Management System (LMS). Our institutes started using this system for serving different department needs. How Does LMS Work? In line with the ever-changing modern times where students rely on the internet for most of their daily activities, it is appropriate for an online system or student portal to be set up to cater to their academic needs. The online portal has to be a place where students can confidently search and obtain information regarding their courses, and also to ensure the accuracy and reliability of the information LMS Technologies Google Class Room Flip Book (Additional LMS Tools)	**https://youtu.be/PluavyCugVk** **https://youtu.be/VD-pSluPboc** **https://youtu.be/tfv0B6CPV8M** **https://youtu.be/0arKHzg4gjY** **https://sbmjckgf.in/flipbook.php**
